If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Yates Petroleum Corporation proposes to reconstruct battery by replacing tanks with 1-500 bbl tank, will build a bermed and lined battery using 30 mil liner. Water tank (closed top), gun barrel and separator will be replaced and painted approved BLM color. After further review, pad cannot be downsized but Yates will bring fence in approximately 20 feet to edge of berm area. Remaining oil not consumed by fire (98 bbls of the 270 total barrels) will be transferred to an isolated tank at the Lovelady SWD temporarily until facilities are rebuilt and can be transferred back, approximately 1 to 2 weeks.
