13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Regeneration is requesting a delay for the remedial cement work to begin when the well stops flowing naturally. Regeneration is monitoring the casing pressure and tubing pressure on the above described well. If any unusual pressure occurs on the backside or the tubing, the BLM will be notified immediately. The remedial cement procedure submitted/approved on sundry dated 3/27/2016 will begin when the flow rate dies or becomes minimal. The BLM will be notified at least 24 hrs before the work begins. Thank you
