| <input type="checkbox"/> Convert to Injection | <input type="checkbox"/> Plug Back            | <input type="checkbox"/> Water Disposal            |   |

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleting horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleting in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

OXY USA INC reports that in reference to the above location, all surface reclamation has been completed according to BLM guidance and is ready for initial inspection for pre-vegetative conditions. Request for approval of site to be placed in monitoring phase for suitable surface growth.

12/27/16 - wo sent for DAM, otherwise, OK to approve

14. I hereby certify that the foregoing is true and correct.

Electronic Submission #356598 verified by the BLM Well Information System
