	☐ Change Plans	☐ Plug and Abandon	☐ Temporarily Abandon	Workover Operations
☐ Final Abandonment Notice	☐ Convert to Injection	☐ Plug Back	☐ Water Disposal	

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Apache would like to amend the proposed packer depth again due to an unsuccessful Blinebry squeeze.
After conversation with both BLM and OCD, it was decided the best course of action for this
conversion and once the work is completed, injection will not begin until Administrative Order
WFX-958 has also been amended.
