If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

In compliance with the approved APD, attached is a list of operators notified within a 1 mile radius for the approximate commencement date of injection at the Zia AGI D #2 well. Attached are the 13 letters sent to the operators and map, that was included with each letter, showing the worst possible case scenarios for H2S exposure areas.
