RECEIVED

**NOTICE OF EXPIRATION
Temporary Abandonment Status**

Dear Operator:

Oil Conservation Division ("OCD") records indicate that the approved temporary abandonment status of the well(s) identified below have expired or will expire on the date(s) indicated.

For the well(s) to be in compliance with Rule 201 (the "inactive well rule"), you must:

1. restore the well(s) to production, injection, disposal or other beneficial use;
2. renew the approved temporary abandonment status of the well(s) under Rule 203;
- or
3. plug and abandon the well(s) pursuant to Rule 202.

If the well(s) are not in compliance with Rule 201 or subject to an Agreed Compliance Order setting a schedule for complying with Rule 201, the well(s) will appear on the Rule 40 inactive well list when the approved temporary abandonment status expires. Having wells on the Rule 40 inactive well list may affect your standing under that rule and subject you to additional sanctions.

It is imperative that you bring the below-listed wells into compliance with Rule 201 or enter into an Agreed Compliance Order with the OCD by the "Corrective Action Due By" date indicated below. If the wells are not brought into compliance or placed under an Agreed Compliance Order, the OCD may take other enforcement action including, but not limited to, applying for an order assessing civil penalties and/or requiring you to plug and abandon the well(s).

INACTIVE WELL DETAIL SECTION

MONUMENT No. 004

Location: G-12-19S-36E

30-025-35121-00-00

Original Well Type: Oil (Producing)
