Subject: 210 tanks at Ramirez and Son's Cruher

Mr. Brown,

Per our phone conversation, We are requesting that OCD allow Ramirez and Son's to obtain and use the two 210 tanks that are currently on the RSI Crusher on Ramirez Road. These tanks were left over from the plugging of the well on the property. We would appreciate the opportunity to use the tanks. I apologize that this is not on company letterhead, and after I return I can get a more formal copy if needed.

Thanks
David Gallegos
