Run MI test to gain extension on temporary abandoned status.

Due to recent ROZ development in the South Hobbs Unit, it is requested that the Byers A131 be granted TA extension barring a successful MIT. The Byers A31 is a deep well that penetrates through the entire ROZ. Recently, a four-pattern ROZ development has been implemented in the South Hobbs Unit. Reservoir Management team is currently evaluating results to expand ROZ development. Byers A31 would be a great candidate to be used in this project expansion.

Condition of Approval: notify  
 OCD Hobbs office 24 hours  
 prior of running MIT Test & Chart
