13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Legacy Reserves Operating LP respectfully requests to extend the TA status of the well for 1 year. To allow for oil price recovery to justify returning the well to production. The well has a very poor oil cut with high volumes of water. The time will allow us to work on other wells in the unit to learn how to shut off water and make this existing well more productive in the future.

*extension ends 12/20/2018
plug or produce by 12/20/2018.*

14. I hereby certify that the foregoing is true and correct.
