Mr. Kautz,

I have attached the directional survey information for the Northeast Kemnitz #233H permit application to this email. The remaining tops that you have asked for are as follows:

Wolfcamp	9950' MD/TVD
Cisco	11,026' MD/TVD 
Canyon	11,897' MD/TVD

Thank you,

Sherri Gore

Subject: RE: Directional Drill Plan

Mr. Kautz,

For the NORTHEAST KEMNITZ #233H I believe that I misread the formation information provided to me by my geologist. I think the actual deepest formation is the STRAWN. The top that I have for that is 11460'. If you still need the estimated tops for the Wolfcamp, Cisco and Canyon I can still provide those for you after I consult with my geologist.

I will work on getting the directional dill plans for the APDs.

Thank you,

Sherri Gore
