- ☒ All pits have been remediated in compliance with OCD rules and the terms of the Operator's pit permit and closure plan.
- ☒ Rat hole and cellar have been filled and leveled. Cathodic protection holes have been properly abandoned.
- ☒ A steel marker at least 4" in diameter and at least 4' above ground level has been set in concrete. It shows the

OPERATOR NAME, LEASE NAME, WELL NUMBER, API NUMBER, QUARTER/QUARTER LOCATION OR UNIT LETTER, SECTION, TOWNSHIP, AND RANGE. ALL INFORMATION HAS BEEN WELDED OR PERMANENTLY STAMPED ON THE MARKER'S SURFACE.

- ☒ The location has been leveled as nearly as possible to original ground contour and has been cleared of all junk, trash, flow lines and other production equipment.
- ☒ Anchors, dead men, tie downs and risers have been cut off at least two feet below ground level.
- ☒ If this is a one-well lease or last remaining well on lease, the battery and pit location(s) have been remediated in compliance with OCD rules and the terms of the Operator's pit permit and closure plan. All flow lines, production equipment and junk have been removed from lease and well location.
- ☒ All metal bolts and other materials have been removed. Portable bases have been removed. (Poured onsite concrete bases do not have to be removed.)
- ☒ All other environmental concerns have been addressed as per OCD rules.
- ☒ Pipelines and flow lines have been abandoned in accordance with 19.15.9.714.B(4)(b) NMAC. All fluids have been removed from non-retrieved flow lines and pipelines.

When all work has been completed, return this form to the appropriate District office to schedule an inspection. If more than one inspection has to be made to a P&A location because it does not meet the criteria above, a penalty may be assessed.

It is just North of the Saunders plant off of Highway 457 between mile marker 11 & 12, turn back east and follow it back until the road ends, you will be able to see where we have done the dirt work.

Chuck,

We are trying to close out the State J Battery and Mark Whitaker with the NMOCD would like for Targa to remove the meter stand that is currently at the St J Battery.

I am forwarding the picture that Mark took that shows this meter stand. This is the only thing remaining on the lease and when it is removed we should be able to finish closing it out.

Thanks, Tommy

Tommy-
Mark Whitaker just called-
He said this stand is at the place where the old battery was.
He thinks maybe Targa did something at the actual well sites and did not go back to the battery?
He wants us to follow up with another communication. Send the picture.
Mark's phone number is
575-393-6161 ext 120 (or 114)

Call him if you need more clarification and that'll save some time.

Brenda,
I was by the 2 subject wells today. All looked good with the exception of the gas metering stand that is at the old battery site for these wells. (See photo).
Please contact the gas purchaser, CC... me with your correspondence, and let them know that the NMOCD has requested removal of the stand.
I will go ahead and release the #4 and hold the #6 pending receipt of the request.
Thanks for your help.
