13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Date of first production for this well was 10/11/2017.
The plan was to run tbg within the first 6 months however this well is still flowing very strong and has a high bottom hole pressure making it difficult to kill the well to run tbg. If the well goes down tbg will be run at that time. If not, EOG respectfully requests a 3 month extension on running tubing in this wellbore.

14. I hereby certify that the foregoing is true and correct.
