13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

COG Operating LLC., respectfully requests to chip seal the existing approved caliche oilfield road from the intersection of Buck Jackson Road south to section 30, T. 24S., R. 32E. into the Windward lease. The rights-of-way for the road and to chip seal it from Buck Jackson Road to the lease line has already been approved. This sundry will approve it from the west section line to the east section line on the top end of section 30, following the existing lease road. A chip seal procedure and map is attached to this sundry. It will consist of: 1) prep sub grade, pull shoulders in and create crown on road, 2) set three 24-inch culverts for surface line crossings and water drainage, 3) Top out road with a 6-inch cap of caliche and compact, 4) Stock pile 5/8 chips on various strategic COG locations, 5) Spray road with PEP primer 25/100th, 6) Place HFE oil on road and 1 lift of 5/8 chips, 7) Compact and de-mobilize.

OK Per Bob Ballard 4-13-2018

14. I hereby certify that the foregoing is true and correct.
