13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

EOG Resources performed a 24 hr injection test, 6/7/2017
 24 hr injection volume 303 bbls
 Average injection pressure of 2686 psi

06/23/2017 RIH to 11,696', pmp 200 sxs cmt
 06/24/2017 RIH, tag TOC @ 10,932', ran MIT test, passed, copy attached

EOG requests TA approval. This well will either be returned to injection or plugged in one year.

Justification of TA Status: It is believed that the injection wells in the Red Hills North Unit are no longer enhancing oil production from the producers. If the WIW's are TA'd and the production is monitored in the producing wells, it can be determined is this is true. If it is, the injection

Expires 12-12-18 NMDED

14. I hereby certify that the foregoing is true and correct. Electronic Submission #419094 verified by the BLM Well Information System For EOG RESOURCES INCORPORATED, sent to the Hobbs Committed to AFMS for processing by PRISCILLA PEREZ on 05/07/2018 (18PP0980SE)

Additional data for EC transaction #419094 that would not fit on the form

32. Additional remarks, continued

wells will be plugged.

This well was going to be either returned to injection or plugged in a year.
The reservoir testing required to evaluate the reservoir, to determine if this injection well has a positive/or no impact on the production in this area is not complete.

EOG respectfully requests a 6 month extension to complete this work/evaluation.
