13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

09/25/2018 C&M Services, LLC started the downsize of the referenced location as per the approved plan. Berms were built around the location. A sinkhole on the east side of the tank battery was filled in. On 09/29/2018 a composite sample of the stockpile of caliche was field screened. The IR area was seeded with 1 acre of Merchant live stock seed mix. Site activities were completed on 10/4/2018.

The location started as a 3.44 acre caliche pad. After the downsize of 1.36 acres the new working surface is 2.08 acres.
