I have reviewed your APD for the Grizzly SWD # 1. Everything looks OK. However, since this APD is at a different location than previously submitted, I have sent a request to the BLM and the SLO for their review as required by R-111-P. Due to the BLM shut down I do not know how long it will take to get a reply from the BLM. As soon as I receive a reply from the BLM and SLO I can finish processing the APD.

Paul,
Attached is all the information requested below as well as a C-102 showing the revised location.
If you need anything else, please let me know.

Sincerely,
Jennifer Elrod

Subject: 3Bears Grizzly SWD

Good Morning Jennifer,

We have heard back from the BLM and SLO concerning the APD for the 3Bears Grizzly SWD well that the location is acceptable. The only thing we need now is

- 1) a new APD with a new casing program
- 2) Are there any potash leases within a 1 mile radius of this well.
 - a) If yes I need a plat showing all potash leases and lessees with in the 1 mile radius.

- b) Certified receipts the lessees have been notified and provided with a copy of your proposed casing program.
- c) If there are no lessees within the 1 mile radius. I need a statement signed by a certified land that there are no potash lessees within the 1 mile radius.
