	<input type="checkbox"/> Change Plans	<input type="checkbox"/> Plug and Abandon	<input type="checkbox"/> Temporarily Abandon	
	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input checked="" type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

ConocoPhillips Company respectfully requests approval to add additional sources of produced water from the Peridot leases as listed below. We are also advising BLM that our expected water disposal volume will increase up to about 16,000 bbl per day. Maximum surface injection pressure is expected to stay within the current permitted psi.

The leases proposed for inclusion are:

NMLC029406B
NMLC058775
NMLC061434
NMLC064149
NMNM097887
NMNM080258

14. I hereby certify that the foregoing is true and correct.

Additional data for EC transaction #446129 that would not fit on the form

32. Additional remarks, continued

NMLC058395

The well is currently injecting into the Siluro-Devonian zone.

There is no additional surface disturbance associated with this request because flow lines were included in the Peridot 8 Federal drilling permits.

Thank you for your time spent reviewing this request.
