Kaiser Francis Oil Company proposes to change the location of the following wells:
Let it be noted the each well is has been federally approved to drill. Kaiser Francis is proposing to move the following wells on the same pad, the purpose is to more efficiently drill same zone wells together to help reduce economic waste and reduce risk while wells will be completed.

Attached are updated plats with location changes. changing the SHL location will not impact the approved well design, and will be drilled in already approved surface hole locations.

Red Hills 603H (FKA Red Hills 002H) will be moved to the SHL 2400' FSL 1735' FWL 31-25S-33E

Red Hills 402H will be moved to the SHL location of 2400' FSL 1795' FWL 31-25S-33E
