13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Conditions of Approval
EC464640

1. Approval is for coriolis meter: #25: Model No. 83F80-KOW2/0 – Serial No. J70A2016000.
Provide beginning totalizer reading prior to first load of oil being sold through meter.
2. The metering facility shall include a temperature probe to monitor the actual oil temperature during custody transfer. This information will be recorded and used in calculating the volume of oil metered during each transaction.
3. The meter shall have a non-resettable totalizer.
4. The custody transfer meter shall be proven during its first load of oil measured from the Antietam 9 Fed Com CTB and in conformance with 43 CFR 3174 as appropriate. Meter proving records shall be maintained for a period of six years from the date of generation and will be made available for audit upon request.
5. A copy of the monthly meter proving will be submitted to the appropriate BLM office within 30 days of proving.
6. The run ticket associated with each oil transfer shall include the measured or calculated BS&W, oil gravity, temperature recorded during the transfer and beginning & ending totalizer readings. Such records shall be maintained for a period of six years from the date of generation and will be made available for audit upon request.
7. A copy of run ticket shall be submitted to the appropriate BLM office within 30 days of ticket generation and will be made available for audit upon request.
8. Operator to maintain tank gauging data to be used as a comparison with the LACT meter readings.
9. This approval may be subject to future review and if determined inadequate with regards to accurate measurement, the approval will be withdrawn.
