13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

EOG respectfully requests permission to stack a rig on an existing pad:

Once we release H&P 621, we will disassemble the rig on location at the Fearless 23 Fed Com 505H. We will stack the rig for 30-40 days on location because the next location that we are planning to move it to is not built. While the rig is stacked, an H&P personnel will be on location 247 to monitor the rig.

14. I hereby certify that the foregoing is true and correct.
