13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Devon Energy Production Company L.P. respectfully requests permission to change the SHL for the Flagler 8 Fed 14H. The approved SHL in the APD is 380FSL & 560FWL. The new proposed SHL will be 380FSL & 570FWL. The reason for the change is the conductor was set 10 feet east of the approved SHL in the APD. A pad expansion is NOT needed for this change.

Please see the attached plats.
