13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Salado Draw Pad 12

Chevron USA Inc respectfully requests an amendment to sundry EC 474584 approved August 2, 2019. The total length of the 20' EDS ROW extension should be 1,993.14' in length. An updated certified surface use plat is attached to this request.

Justification: The proposed EDS ROW extends the existing EDS power line to the West in Section 15 of T26S-R32E in Lea County, NM over to the existing Pad 12 well pad. The current artificial lift method for wells SD WE 15 FED P12 1H-3H is gas lift. Due to frac hits, these wells have become loaded with water and the existing gas lift is unable to load these wells. A properly sized electric submersible pump will keep the water column moving up the well, allow further oil & gas

Surface good 9-30-2019 DR same COA'S

14. I hereby certify that the foregoing is true and correct.
