13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Mack Energy Corporation is requesting approval to remediate cement void in the production string at Final Abandonment. TOC did not tie back into the intermediate casing string. On 8/14/2019 we attempted to pressure test the annulus to attempt a cement squeeze. Pressured to 420# for 40 min and bled off 60#.

Chart is attached.

14. I hereby certify that the foregoing is true and correct.
