13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

BLM Bond No. NMB001079
Surety Bond No. RLB0015172

For the following well Rodney Robinson Federal #101H, API # 30-025-46278. Matador is proposing a intermediate casing change for the 9-5/8" 40# J-55 casing with a planned set depth of 5047'. Matador plans to run 9-5/8" 40# HC-P110 BTC (spec sheet attach) at a new casing set depth of 9,000'. Matador is also proposing to change the mud program for the intermediate hole section. The mud program would change to 9.5 to 10.2 PPG Saturated Brine to 8.6 to 8.8 OBM for the intermediate hole section. The deeper intermediate will require a DV stage tool placed at 5000' (updated cement design included).

14. I hereby certify that the foregoing is true and correct.	
Electronic Submission #493039 verified by the BLM Well Information System For MATADOR PRODUCTION COMPANY, sent to the Hobbs Committed to AFMSS for processing by PRISCILLA PEREZ on 11/21/2019 (20PP0424SE)
