13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Request approval of gas measurement off-lease. Measurement of gas off-lease was necessitated by the land owner declining to approve running a line to the battery. See attached "Exhibit A Diagram of Lea County Federal #2 Battery" and "Exhibit B Map of 3" Gas Line from Lea County Federal #2 to the Southland Royalty A Battery".

There are no other wells tied-in to the gas line, therefore gas solely from the Lea County Federal #2 is measured with no commingling.

Approximately 59 MCFD will flow down the 3" line to the sales meter at the Southland Royalty A battery.
