13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Legacy Reserves Operating, LP would like to extend TA status for this well. Henry Petroleum had been very active the past year (2005) returning wells to production in the unit (4 wells) and the non unit (2 wells) and was already busy doing the same this year. Henry Petroleum has transferred operatorship to Legacy Reserves - effective 8-1-2006. Legacy is accelerating the schedule for remedial work and would like permission to keep this well TA'd for now and evaluate the well to return to production as each phase is completed. The phases are currently under way.

**APPROVAL FOR 1 YEAR**14. I hereby certify that the foregoing is true and correct
Name (Printed/Typed)**Danny M. Brock**
