Measurement

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

As per BLM request letter, we respectfully request that the #2 Bootleg 11 be added to the current permit to measure the gas well gas off lease for the Bootleg 11 Fed Com, Well #1 (copy of Sundry attached).

The gas from Well #1 and Well #2 is measured by check meter prior to being metered at the sales point meter. The production is allocated as follows:

Bootleg 11, Well #1 has 2-210 bbl oil tanks and all condensate production and sales occur at this point.

Bootleg 11, Well #1 has a water meter and gas check meter. Production & sales percentages for gas well gas is calculated by daily meter readings. The current average daily production for Well #1 is 2 bbls condensate per day, 865 mcf gas per day and 1 bbl of water per day.

Bootleg 11, Well #2 has 2-210 oil tank and all condensate production and sales occur at this point.

Bootleg 11, Well #2 has a water meter and gas check meter. Production & sales percentages for gas well gas is calculated by daily meter readings. The current average daily production for Well #2 is 1 bbl condensate per day, 65 mcf gas per day and 1 bbl water per day.

The total flow gas volume does not reduce the volume measured or reported to the BLM in any way, and there is no reduction in volume or revenue. Latigo respectfully requests approval of the common off lease sales point measurement for these two wells.

The site security plan for this lease is located at Latigo Petroleum, Inc., 15 W. 6th St., Suite 1100, Tulsa, OK 74119.

### FAX:

To: Lisa Hunt, Regulatory Analyst (4 Pages)

From: Kathy Haston, Bureau of Land Management, Hobbs Field Station

Subject: #2 Bootleg 11 F.C. Off-lease gas measurement and surface commingling

Lisa,

1) Rather than issuing an INC, I am going to send a fax request for surface commingling and off-lease measurement of gas from the above well. I am sending a copy of the Pecos District's guidelines. Submit a Sundry Notice (3160-5) along with all pertinent information requesting approval for surface commingling to gas from the #1 Bootleg 11 well and the #2 Bootleg 11 well and off-lease measurement. Off-lease measurement for the #1 well has previously been approved, but at this time, gas was not being commingled with another well. If you have any questions concerning this, call the Roswell office and ask to speak with Alexis Swoboda.

2) I received the facility diagram for the #2 Bootleg 11 well. Thank you for sending me the copy. I don't know why the Hobbs Field Station never received a copy of the information you submitted to the CFO in 12/05. I need to know the physical location where Latigo maintains the Site Security Plan for this facility. If it is your office in Midland, let me know and I will type a label and stick it on the facility diagram. I am sending you a copy out of Onshore Order and Gas Order #3 (H) explaining what a site security plan is. On the enclosure I sent with the INC requesting the facility diagram (I am resending it) the last item "Clearly identify the site security plan covering the facility", I just want to know the physical location of where the site security plan is located. This is usually just added to the facility diagram, ex. Site Security Plan located: the physical address.

If you have any questions, feel free to call me or e-mail me at the above e-mail address.

Thanks for your help,

Inc No. KAH-118-04 Bootleg 11 Fed Com #1 communitized W/2 Sec 11 - 320 acres include N/2 NE/4 80 acres (Lease NM14332) 40 acres SE/4 NE/4 (Lease 108043) & 200 acres being S/2 E/2 & SW/4 of NE/4 (Lease 105892), Gas contract was set up w/Conoco-Phillips originally, PL now under Duke's domain. PL metering point established approx 1000' FSL & approx 1800' FEL of Sec 14. Conoco-obtained right-of-way for previous operator Saga to lay poly line (to be buried) to this metering point for tie in to the Livingston Ridge processing plant. Conoco-Phillips stated that it would be several months to provide/construct a sales metering point at the wellhead and the well would be SI several months during construction. Total flow gas volume is metered outside the communitized acreage, however this method does not reduce the volume measured or reported to the BLM in any way, no reduction in volume or revenue. Latigo respectfully requests approval of Off-Lease Measurement. A schematic, not to scale, is included for your perusal.

RE: Latigo Petroleum, Inc., Bootleg "11" Fed Com lease, Wells #1 and #2  
Section 11, T22S, R32E, Lea County, New Mexico

Dear Ms. Haston,

Please see attached the Sundry Notice for the above referenced wells in response to your letter concerning the surface commingling and off lease measurement for the gas well gas produced from these wells.

Copies of the Sundry Notice, prior permit, land plat & pipeline diagram have been sent by certified mail to the parties as listed on the attached "Working Interest" list and the "Combined Division of Interest Listing by Property" on today's date.

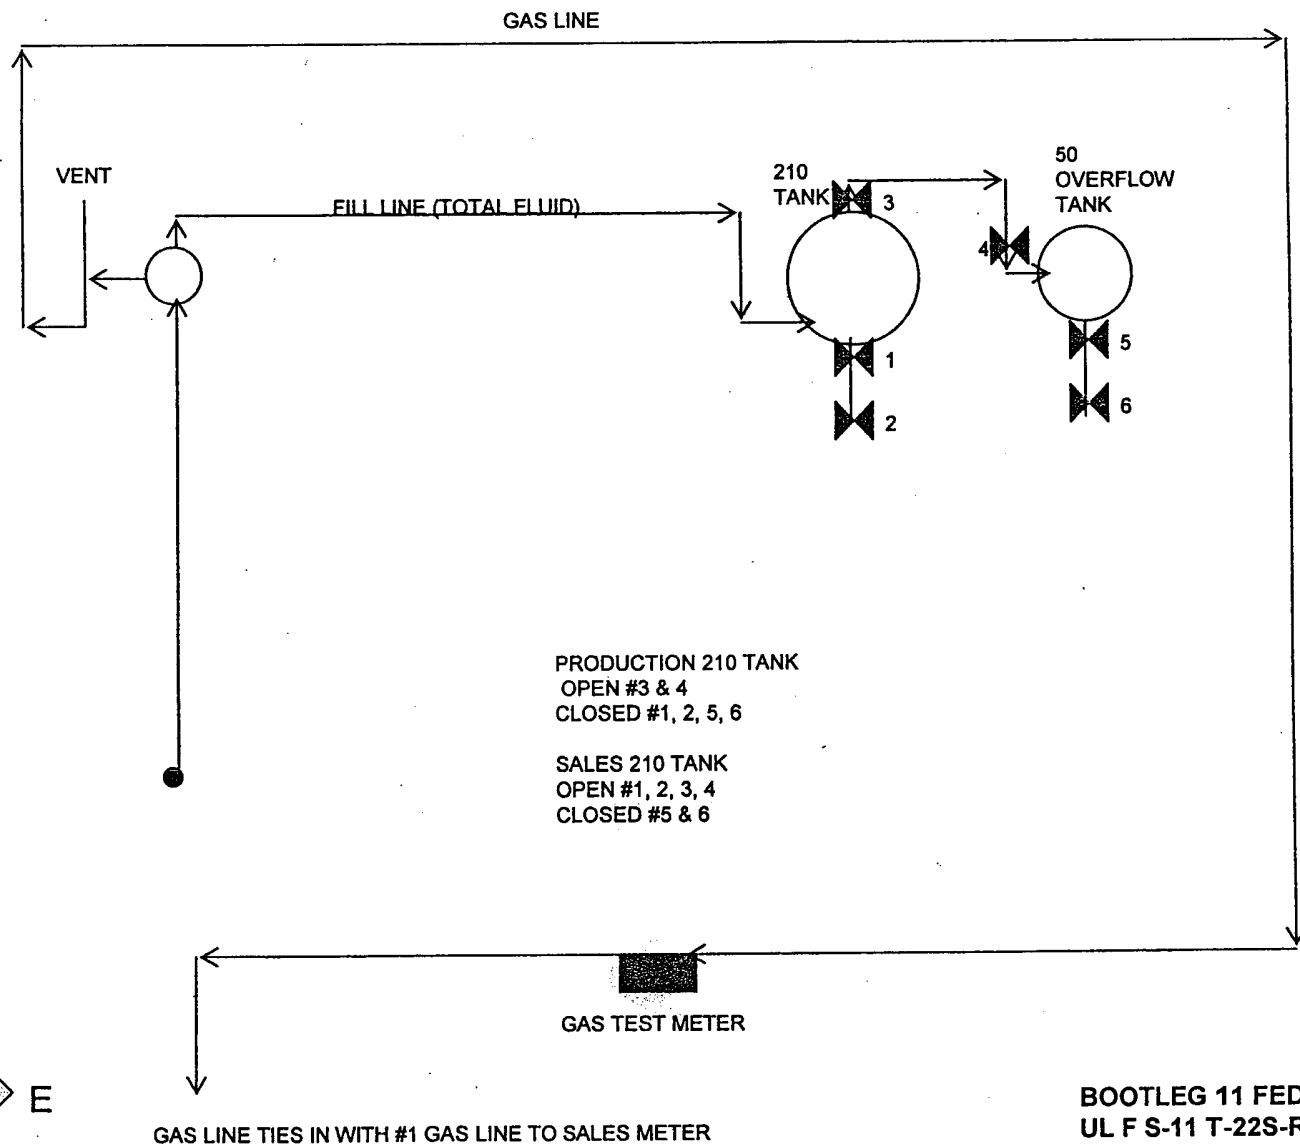

Please let me know if you need any further information or documentation concerning this filing. Thank you.

Yours truly,

Carlsbad, NM 88220

RE: Latigo Petroleum, Inc., Bootleg "11" Fed Com lease, Well #1 and #2  
Section 11, T22S, R32E, Lea County, New Mexico

Dear Mr. Ingram,

Please see attached copies of the certified mail receipts verifying notification to the ownership for the referenced wells. These notification copies are supplements to the listing of ownership submitted with our initial off-lease measurement Sundry Notice filing of 8-28-06.

Also see enclosed the Section(s) and area map designating the location of the Latigo wells in Section 11 and the Bootleg sales point. These maps were initially filed with the off lease measurement Sundry filed by Saga Petroleum, LLC when the Bootleg "11" Fed Com #1 was completed. I have also attached a copy of the Bootleg 11 Fed Com, Well #2 battery diagram, as described in our Sundry Notice.

Based on the meter monitoring of the gas prior to going to the sales point the federal royalty will not be reduced. The gas purchaser will not set separate sales points for the two wells, therefore in order to keep the wells producing we must utilize the sales system as established. Thank you.

Yours truly,

Ann E. Ritchie, Regulatory Agent
