13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

The operator gives Notice of Intent to take the following steps to return Well No. 9 to injection service:

1. Drill out existing plug.
2. Run new tubing and packer.
3. Set packer at 2600'. Run State MIT.
4. Acidize Perfs.
5. Connect Well into replaced injection system and resume injection.

Operator currently has approved NOI to perform this work through October 10, 2006. Requesting an extension of that time to coincide with the installation of the new injection lines.
