(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimate date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Chevron requests approval to build a new surface production facility at 1310'FSL & 1310' FWL of Section 24 Township 26S Range 34 E. The new location will consist of a gas compressor, a gas production unit, a dehydration unit, two 300 barrel carbon steel oil tanks, one 500 barrel carbon steel water tank, a 2" meter run, and the associated piping and valves. The tanks will be placed within a containment area over a plastic liner to protect the soil in the event of a liquid spill. The oil and water will be trucked from the location while the gas will be sold at the location to the customer.
