13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomplate in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

**Mar Oil and Gas Corp. purchased the Eumont Hardy Lease 12/1/2003. Mar started reservoir study of the Eumont Hardy Lease and it was never completed due to the loss of the reservoir engineer. A new engineer has been hired and the reservoir study has been restarted. Mar does not want to plug and abandon the EHU # 46 until the completion of the reservoir study. The well had been temporarily abandoned by a previous operator. If granted TA status, Mar will return the well to production or plug and abandon on or before 10/15/2008. Our records indicate that a previous operator had CIBP at 3475ft and loaded well with inhibited packer fluid. Well was full of fluid with no pressure and passed OCD witnessed TA test on 9/28/2006. Pressure chart previously submitted**
