13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Seely Oil Company is applying for a 3 phase 480 Volts electric power line that will be paralleling the west side of the N/S existing access road on lease. See Exhibit "A". The electric line will originate at a Leaco power line north of the location in Sec. 7, a State section. This is an amendment of the original Sundry Report because of a new shorter power source. See Exhibit "A" for new route. A State ROW has been applied for. Archaeological Survey Consultants, P.O. Box 2285, Roswell, NM 88202 submitted their report # ASC-01-105, dated July 20, 2001 covering the N/S portion paralleling the existing access road. Southern New Mexico Archaeological Services, Inc. is surveying the balance powerline on State surface north of the E/W road not previously surveyed and their report will be sent to the appropriate government agencies.

14. I hereby certify that the foregoing is true and correct
