13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

ConocoPhillips requests approval to revise the originally permitted surface casing setting depth to 1550-1600' MD RKB, instead of 1600-1650' MD RKB.

This is because the correlation of the Top of the Rustler is 1497' MD RKB, and the Top of the Salado is 1632' MD RKB. Therefore, 1650' MD RKB could potentially be within the salt.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
