CASING/CEMENT JOB ☐

OTHER: ☐

13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

The Monsanto State #4 was already shut-in when Pogo purchased the lease and took over operations in August 2005. In October 2006, Pogo made down hole repairs and in good faith returned the well to production. But since then, the well has only produced water, no oil or gas, thus remains on the NMOCD inactive well list.

Pogo is anticipating conducting a tertiary (CO2) recovery program in the Paduca field in which the Monsanto State #4 would be a part of and if successful, would hopefully return to producing oil and gas in commercial quantities. Given the scarcity of CO2 at this time, our plans have been delayed until such time as an adequate supply of CO2 is secured. Accordingly, Pogo request that the NMOCD allow this well to be TA'd with the understanding that it will be returned to production once the project is completed and CO2 is being injected. A MIT will be conducted and witnessed yearly until such time the well is returned to production.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☐, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
