13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

The drilling of the above captioned well was done in anticipation of conducting a tertiary (CO2) recovery program in which this well would potentially be used as either an injection well or producing oil well. Given the scarcity of CO2 at this time, our plans have been delayed until such time as an adequate supply of CO2 is secured. Accordingly, Pogo requests that such well be allowed to remain in a TA'd status, with the understanding that it will conduct a mechanical integrity test in such well within the next few days.

Request TA Status! Cw TA Test must be complete by 5/15/07. Cw

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☒, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
