☒ Other Temporary Abandon
☐ Change of Plans
☐ New Construction
☐ Non-Routine Fracturing
☐ Water Shut-Off
☐ Conversion to Injection
☐ Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Fasken Oil and Ranch, Ltd. is requesting approval to continue the temporary abandon status of the Ling Federal No. 1. This well has a CIBP at 12,200' with 35' of Class H cement on top, and a cement retainer set at 9450'. We request approval to run a 30 minute MIT at 500 psi to show the integrity of the casing is intact. Fasken plans on making this a salt water disposal well when the Ling Federal No. 2 wellbore is plugged back to upper formations that will produce substantial amounts of water.

After 7/2/2007 the well must be online or plans to P & A must be submitted.

14. I hereby certify that the foregoing is true and correct
