13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Rubicon respectfully requests that this well remain TA'd for six months, until 9/1/2007. Rubicon has recently finished drilling the Bough Federal 13 #1 in Section 13, 1650' FNL & 1980' FEL T-9-S, R-35-E API # 30-025-38276 and the well is currently being completed. Rubicon would like to test the Bough Federal before deciding on the fate of the Federal A#2. Based on the results of how well the Bough Federal 13 #1 well performs, Rubicon will either recomple the Federal A #2 as a San Andres Producer, possible injection well or plug it.

After 7/31/07 the well must be online or plan to P & A must be submitted.
