13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

The subject well was spudded on 9-7-01. 8 5/8" csg was set @ 1800' RKB and cemented to surface. The well was drilled to 4730' and new 5 1/2" 17 lb/ft J-55 csg was set @ 4726' RKB. The top of cement was 1720' so that the csg inside the 8 5/8" had very little tensil stress. Approval to plug & abandon was received on 7-16-03, which allowed the operator to recover 1700' of 5 1/2" csg. The casing that was recovered was protected from the wellbore by the 8 5/8" csg and is suitable for downhole use. Seely Oil Company respectfully requests approval to utilize this casing for production casing in the presently drilling EK Queen Unit No. 111.

14. I hereby certify that the foregoing is true and correct

Title 18 U.S.C. Section 1001 and Title 43 U.S.C. Section 1212, make it a crime for any person knowingly and willfully to make to any department or agency of the United States any false, fictitious or fraudulent statements or representations as to any matter within its jurisdiction.

GWW

CONDITIONS OF APPROVAL

All casing, except the conductor casing, shall be new or reconditioned and tested casing. All casing shall meet or exceed API standards for new casing. The use of reconditioned and tested used casing shall be subject to approval by the authorized officer: approval will be contingent upon the wall thickness of any such casing being verified to be at least 87 1/2 percent of the nominal wall thickness of new casing.
