OTHER: ☐

13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

BTA Oil Producers respectfully requests permission for off-lease movement, after measurement, of hydrocarbons for this lease. This is a one-time request. Future production will continue to be measured and stored on each individual location, as it has been. The basis of this request is to prevent waste and to be able to take advantage of current market pricing. The production from each lease will be measured accurately by gauging and will be documented at both locations prior to and after transporting. With such accurate record-keeping, we do not anticipate payout complications. We believe that, by moving the measured hydrocarbons to a central point for sale, we are not hurting the value of production.

The current stock on hand is 52 bbls. Our intent is to put together smaller volumes at one central location in order to make a full load for transporter pick up, rather than have small volumes of stock at individual locations that sit for extremely long periods of time.

We propose to move the stock on hand at this lease to BTA's 8817 JV-P Grama #1 in UL -C-, Sec. 16, T22S-R34E, Lea Co., NM (API 30-025-30561).

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☐, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
