13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Due to higher gas prices, we plan to tie this well into a central point of delivery (CPD) which will also have a gas compressor located at the CPD. This well has not produced since July of 2004. The gas purchaser has a high low volume fee that makes it impossible to economically produce low volumes of gas. Attached is New Mexico OCD Form C-136 requesting approval for the central point of delivery. If you have any question, please call me.

14. I hereby certify that the foregoing is true and correct
