3 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

BTA Oil Producers respectfully requests permission for off-lease movement, after measurement, of hydrocarbons. This is a one-time request. Our intent is to put together smaller volumes at one central location in order to make a full load for transporter pick up, rather than have small volumes of stock at individual locations that sit for extremely long periods of time. Future production will continue to be measured and stored on each individual location. The basis of this request is to prevent waste and to be able to take advantage of current market pricing. The production from each lease will be measured accurately by gauging and will be documented at both locations prior to and after transporting. With such accurate record-keeping, we do not anticipate payout complications. We believe that, by moving the measured hydrocarbons to a central point for sale, we are not hurting the value of production.

We propose to move the stock on hand to this lease from BTA's :
