13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

7/19/07- Sent crew to well to clean up misc. trash and scrap located north of dry hole marker in mesquite bushes. Crew removed old cans, bottles, thread protectors and other trash found. Also removed old tire and well signage. Had crew go around entire location to pick up any other trash or material that might be laying around. Crew bagged all trash and loaded thread protectors and old tire into trailer and hauled off to landfill. All work has been completed and lease is ready for final inspection.

14 I hereby certify that the foregoing is true and correct.
