13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

This proposed 3" low pressure gas pipeline is desired by Pogo Producing Company to be buried across the surface of the above described lands. At the request of BLM's Barry Hunt (and as recently indicated to Mr. Hunt by the affected surface owner, Mr. Bert Madera), please be advised that the route for the subject pipeline, as agreed to by Pogo and Mr. Madera and as shown on the plat previously submitted to the BLM with Pogo's Sundry Notice dated 4/25/2007, is in fact preferable to Mr. Madera, over that which was determined by Mr. Hunt. Also, the subject pipeline is to be buried at the request of Mr. Madera.
