13 Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

McElvain Oil & Gas Properties notified the BLM of intent to P&A the Parcell Federal # 3 well via Sundry NOI dated 4/7/2007. This NOI was subsequently approved by the BLM on May 16, 2007 with the condition that the P&A operations commence within 90 days from the approval date. This deadline was missed by McElvain Oil & Gas and verbal notice was given by McElvain's Reed Fischer to the BLM's Mr. Jim Amos on 8/17/07. The originally scheduled P&A operations were first delayed due to a timing overlap with a 3D seismic shoot conducted in mid July 2007 over acreage which included the Parcell #3 well pad. P&A operations were again delayed due to major road repair operations undertaken on 4 miles of access road through the field in early October, 2007.

McElvain Oil & Gas is requesting permission to extend the plugging deadline until early December 2007 when abandonment operations are again scheduled to be performed by Triple N Services, Inc. of Midland, Texas, a contract 3rd party P&A service.
