13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Ref. Ltr. #07-JKB-095 09/28/07, attached.

Request approval to reclaim the reserve pit by stripping the top 6-12" from the location, then replace with native soil and re-seed.

RE: 07-JKB-095 Jack B-27 #3 NMLC032326B

Dear Sir or Maam:

On September 26, 2007, we completed a field examination on the plugged Jack B-27 #3 well located 1980' FSL and 330' FEL, Section 27, T24S, R37E in Lea County, New Mexico. 43 CFR 3162.5-1 (b) states "Upon conclusion of operations, the operator shall reclaim the disturbed surface in a manner approved or reasonably prescribed by the authorized officer."

After monitoring vegetation growth at the above well location for several years, adequate and desirable native coverage has failed to grow over much of the reserve pit area. Please submit a reclamation plan for the reserve pit. This may include deep burial, complete removal of contents, or capping (topping with two feet of caliche and one foot of native soils).

Please submit the reclamation plan for the reserve pit to Jenny Bell at the above address or fax (505-885-9264) no later than November 7, 2007. Do not initiate reclamation activities until you have been contacted by an authorized official regarding the proposal. Failure to comply with this written order will result in a Notice of Incidents of Noncompliance.

Under provisions of 43 CFR 3165.3, you may request an Administrative Review of the order described above. Such request, including all supporting documents, must be filed in writing within 20 business days of receipt of this notice and must be filed with the State Director, Bureau of Land Management, Post Office Box 27115, Santa Fe, New Mexico 87502-0115. Such request shall not result in a suspension of the order unless the reviewing official so determines. Procedures governing appeals from the instructions, orders, or decisions are contained in 43 CFR 3165.4 and 43 CFR Part 4.

If you have any questions concerning the above matter please do not hesitate to call Jenny Bell at 505-234-5919.

Sincerely,

James A. Amos
Supervisory Environmental
Protection Specialist
