The SWD well at this facility was plugged and abandoned on February 6, 2002. Closure activities at the site began on June 25, 2007 in accordance with the NMOCD-aconsultants of Arcadis of Midland, Texas. Excavations at the former redwood tank and clay barrier, backfilled with compacted, blended soils, and capped with quality topsoil site was covered with quality soil and planted with a seed mixture of native vegetation. The enclosed report from Arcadis provides additional information and documentation of	l emergency pit sites were lined with a compacted The facility's caliche pad was removed and the
