Variance request to change from quarterly meter calibration to semi-annual due to <100 mcf volume

(Note: Report results of multiple completion or log completion or Recompletion Report and Log form)

13 Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimate date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

RECEIVED

JAN - 4 2008

HOBBS OCD

Chevron requests of the Bureau of Land Management a variance in the calibration frequency on

the Friend Federal Well no. 1 Meter No. 2300250105. This well averages

appx 1 MCFD and the meter in question is not the Custody Transfer Meter, but is the Allocation meter.

The average volume is appx. 100 mcf/d or less and has appx. 60% nitrogen. Because of the distances to reach

these leases, the low volume, and the high nitrogen content, Chevron is requesting a variance to allow semi-annual

calibrations and plate inspections on the meter in question. If you have any questions, please feel free to call me at

the address above and thank you for your consideration.

14 I hereby certify that the foregoing is true and correct
