FORM APPROVED
OMB No. 1004-0137
Expires: March 31, 2007

SUNDRY NOTICES AND REPORTS ON WELLS

Do not use this form for proposals to drill or to re-enter an abandoned well. Use Form 3160-3 (APD) for such proposals.

SUBMIT IN TRIPLICATE - Other instructions on reverse side.

1. Type of Well

☐ Oil Well ☐ Gas Well ☐ Other

2. Name of Operator

Burlington Resources Oil and Gas

3a. Address

P. O. Box 51810 Midland TX 79710-1810

3b. Phone No. (include area code)

(432)688-6884

4. Location of Well (Footage, Sec., T., R., M., or Survey Description)

330' FNL & 660' FEL
Sec. 7, T-24-S, R-32-E

Unit A

5. Lease Serial No.

NM 55953

6. If Indian, Allottee or Tribe Name

7. If Unit or CA/Agreement, Name and/or No.

8. Well Name and No.

Jack Tank '7' Federal #2

9. API Well No.

30-025-32482

10. Field and Pool, or Exploratory Area
Wildcat

11. County or Parish, State

Lea
New Mexico

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

(Ref. Certified Letter dated 09/19/07 sent to ConocoPhillips Company: Location originally under Meridian Oil Inc. - now Burlington Resources)

Our reclamation plan is as follows:

The Reserve Pit is 3 - 4 feet lower than existing grade.

Caliche will be stripped from the location and road to construct a 2 foot cap across the top of the entire pit.

In addition, the pit will be covered with 2 feet of native soils from existing areas.

All contaminated soil and any excess caliche at the site, will be properly disposed of at an approved disposal facility. The pit, location, and roadway will then regain its natural state.

Pit, location, and roadways will be ripped of the entire disturbed area of 6 - 12 inches and then seeded with BLM # 2 seed mixture. Access road will be rebarricaded to discourage vehicular traffic.

14. I hereby certify that the foregoing is true and correct

RE: 07-JKB-079 Jack Tank 7 Federal #2 NMNM55953

Dear Sir or Maam:

On September 12, 2007, we completed a field examination on the plugged Jack Tank 7 Federal #2 well located 330' FNL and 660' FEL, Section 7, T24S, R32E in Lea County, New Mexico. 43 CFR 3162.5-1 (b) states "Upon conclusion of operations, the operator shall reclaim the disturbed surface in a manner approved or reasonably prescribed by the authorized officer."

After monitoring vegetation growth at the above well location for several years, adequate and desirable native coverage has failed to grow. There is low vegetation growth over the reserve pit, in particular. Salts have leached and plastics are visible on the surface. Please submit a reclamation plan for the reserve pit. This may include deep burial, complete removal of contents, or capping (topping with two feet of caliche and one foot of native soils). If capping is the preferred method, caliche can be scraped over the pit from the well pad and access road (see below).

Caliche should be removed from the access road and well pad. Caliche can be utilized on other well pads, roads, or in the capping of the aforementioned reserve pit. Please rip and seed all disturbed locations with LPC seed mixture (see enclosed information).

Rebarricade the access road to discourage vehicular traffic.

Please submit the reclamation plan for the reserve pit to Jenny Bell at the above address or fax (505-885-9264) no later than October 23, 2007. Do not initiate reclamation activities until you have been contacted by an authorized official regarding the proposal. Failure to comply with this written order will result in a Notice of Incidents of Noncompliance.

Under provisions of 43 CFR 3165.3, you may request an Administrative Review of the order described above. Such request, including all supporting documents, must be filed in writing within 20 business days of receipt of this notice and must be filed with the State Director, Bureau of Land Management, Post Office Box 27115, Santa Fe, New Mexico 87502-0115.

Such request shall not result in a suspension of the order unless the reviewing official so determines. Procedures governing appeals from the instructions, orders, or decisions are contained in 43 CFR 3165.4 and 43 CFR Part 4.

If you have any questions concerning the above matter please do not hesitate to call Jenny Bell at 505-234-5919.

Sincerely,

James A. Amos
Supervisory Environmental
Protection Specialist
