Dear Mr. Williams

I am in receipt of your letter dated January 24, 2008 regarding our operation near Hobbs, New Mexico. As you are aware we have gone to great lengths and expended significant monies to mitigate the impact of our operations on the neighboring land owners. We regret any continued inconvenience that we may be causing but we believe we are at the limits of reasonable technology to do more.

Regarding disposition of the well, enclosed please find attached a Form C 103 which indicates our intent to re-complete the well into a San Andres interval known as the Hobbs Zone which has been productive nearby.

Our efforts to secure a gas line are still meeting resistance on the east end near DalPaso from surface owners there. We are seeking other solutions and I will be happy to discuss those with you at your convenience.

If you have any questions or comments, please contact me at (405) 700-7480. Also please note our correct address at the top of the page. Your letter of 1/24 went to our old address.

Sincerely,

Richard Marlin  
Vice President
