13. Describe Proposed or Completed Operation (clearly state all pertinent details, included estimated starting date of any proposed work and approximate duration thereof.

If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Request to surface commingle gas sales only from Mescalero 30 Federal No. 6 with gas sales from Mescalero 30 Federal No. 2 into the Duke 60 psi LP sales line at the Mescalero 30 Federal No. 2 tank battery as shown on attached topo map.

Attached are site security diagrams for the two wells indicating gas sales with check meters for allocation purposes.

Gas production is from same lease with identical ownership and common source of supply.

No party will be harmed by surface commingling the gas from these 2 wells.

14 I hereby certify that the foregoing is true and correct
