Dear Mr. Maxey:

Corrective actions listed in the subject letter have been made, and locations of these plugged wells are ready for re-inspection.

Please note that two electrical power poles were left at the State 32 No. 1 wellsite at the request of the landowner, who agreed to assume responsibility for them.

Also note that four electrical power poles remain onsite at the Davenport No. 1 location, again at landowner's request. Landowner assumes responsibility for this equipment.

Should further information be required, please contact me. I can be reached by telephone at (918) 621-6533 and by e-mail at [CSSwan@manhattanpetroleum.com](mailto:CSSwan@manhattanpetroleum.com).

Sincerely,

*Connie Swan*
